CMH8KMKII

PROFESSIONAL INTERCHANGEABLE-CAPSULE CONDENSER MICROPHONE

Description

The CMH8KMKII continues the series' hallmark sound—natural, clear, and detailed—with a quiet background and a wide dynamic range that captures the full expression of vocals, voiceovers, acoustic instruments, and percussion. Its interchangeable capsule system offers three pickup patterns—cardioid, supercardioid, and omnidirectional—allowing users to adapt easily to different recording environments, spaces, or stage conditions.

Whether used in the studio or on stage, the CMH8KMKII delivers stable output and authentic tonal

depth with exceptional clarity and precision. Constructed with a durable silver-metal body, the CMH8KMKII combines professional aesthetics with long-lasting reliability. The included plastic carrying case ensures convenient storage, transport, and protection for professional use on the move.

Features

- Low-noise circuitry ensures a clean background and reveals subtle details
- Wide dynamic range and high SPL handling for vocals, voiceovers, acoustic and percussion recording

- Balanced tonal response—stable lows, clear mids, and smooth highs for effortless post-production
- Interchangeable capsule system with cardioid, supercardioid, and omnidirectional options
- Rugged silver-metal construction for durability and professional appearance
- Includes plastic carrying case for easy transport and protection

Specifications

*Note: Specifications are subject to change.

Type	Condenser Microphone
Polar pattern	Cardioid, Supercardioid, Omni
Sensitivity	-38 ± 2 dBV/Pa
Frequency response	20 - 20,000 Hz
Rated impedance	200 Ω
Equivalent Output Noise	<12 dB
S/N Ratio	82 dB
Dynamic range	123 dB
MAX. SPL	135 dB
Power supply	48V phantom
Dimensions	Ø20 × 127 mm
Net weight	109 g (single)
Connector	XLR3M
